endurmo.com

Make your space look new AND KEEP IT THAT WAY

EndurmoShield's restoration process removes dirt, contaminants, and odors from tile and grout and then re-bonds it with a non-porous material. Afterwards a protective shield is applied leaving a like-new appearance that will actually last. Create a better experience of your environment from aesthetic to air quality with EndurmoShield.

PROCESS INCLUDES

- Deep Cleaning
- Grout Sealing
- Glaze Surfaces

SAVE TIME & MONEY

Endurmo's restoration processes save upfront renovation costs and reduce ongoing maintenance.

RENEW YOUR SPACE

Have all the fun of that newly renovated wow factor while still making a smart move financially.

PROTECT YOUR INVESTMENT

As a protective barrier on hard surfaces, your space will have that brand new look for the long haul.
