

EndurmoColorcoat

Make old tile surfaces look new with restoration and color.

Make your space look new AND KEEP IT THAT WAY

EndurmoColorcoat is a solid color, two component waterborne, low VOC, one-coat application that performs like an industrial epoxy multi-coat system for floors and walls. The coating can be applied to the entire floor or wall to give a colorful, like-new appearance. It seals to make the floors and walls more maintainable by eliminating odors, mold, mildew, and bacteria from forming.

PROCESS INCLUDES

- Deep Cleaning
- Surface Sanding
- Primer Application
- Roll On EndurmoColorcoat

SAVE TIME & MONEY

Endurmo's restoration processes save upfront renovation costs and reduce ongoing maintenance.

RENEW YOUR SPACE

Have all the fun of that newly renovated wow factor while still making a smart move financially.

PROTECT YOUR INVESTMENT

As a protective barrier on hard surfaces, your space will have that brand new look for the long haul.
